In Association With

Gokulam Park Kochi

Saturday 26th

September 2026

ABOUT LENSFED

Founded in 1998, the Licensed Engineers & Supervisors Federation (LENSFED) has evolved into one of Kerala's most respected professional organizations representing licensed engineers, supervisors, and construction professionals. With a strong statewide network spanning more than 500 unit committees, 96 area committees, 14 district committees, and an active state leadership, LENSFED has consistently championed excellence, professionalism, and innovation in the construction sector.

For over two decades, LENSFED has played a pivotal role in strengthening Kerala's built environment by promoting technical competency, ethical practices, continuous professional development, and meaningful collaboration among stakeholders in the construction industry. Today, the organization proudly represents 15000 professionals who contribute to the planning, design, supervision, and execution of residential, commercial and infrastructure projects across the state. LENSFED members serve as critical decision-makers in Kerala's construction and infrastructure ecosystem.

ABOUT ASIANET NEWS

Asianet News Network Pvt. Ltd. is Kerala's most trusted and widely viewed news broadcaster, with a legacy of over 30 years in delivering credible and impactful journalism. As a pioneer in the state's news media industry, the network has consistently set Benchmarks.

With a strong global presence, Asianet News reaches millions of viewers across India and the worldwide Malayali diaspora through its extensive broadcast and digital platforms. The channel continues to lead television viewership rankings while maintaining a powerful digital footprint with over 11.8 million YouTube subscribers, 7 million Facebook followers, and 3.3 million Instagram followers. Its unmatched reach and influence make Asianet News one of the most prominent and respected media brands in South India.

ABOUT THE EVENT

A HISTORIC INDUSTRY MILESTONE

LENSFED is elevating its annual flagship event to an unprecedented global scale on **26th September 2026**. In an exclusive media alliance with Asianet News, this landmark event introduces a high-profile industry Conclave alongside a grand Engineers Award Ceremony honoring breakthrough excellence across 30 specialized categories.

For the first time in history, the entire mega-project will be captured, produced, and broadcasted worldwide as Three Exclusive Prime-Time Episodes on Asianet News, delivering your corporate identity into millions of affluent consumer households and global infrastructure trade networks.

WHY PARTNER WITH US?

Absolute Market Monopoly: Position your brand directly in front of the key decision-makers commanding 80% of Kerala's construction and material market. **Global Media Exposure:** Leverage massive national and international television impressions to build unmatched brand trust and premium authority. **High-Yield B2B Pipeline:** Convert global media reach into a lucrative, long-term sales pipeline by engaging directly with active practicing engineers and procurement leaders.

THE CONCLAVE

SHAPING THE FUTURE TOGETHER

The LENSFED Engineers Excellence Conclave 2026 is a premier knowledge symposium and collaborative B2B think-tank held alongside our grand awards gala. This high-profile segment features engaging panel discussions driven by honored State Ministers, respected industry experts, senior engineering professionals, and key policymakers mapping out steady advancements and structural trends across the state.

OUR VISION FOR THE CONSTRUCTION SECTOR

Industry Status for Construction Sector:

Advocating for the recognition of the construction sector as an industry, enabling structured policy support, access to institutional finance, incentives, technology adoption, and sustainable growth.

Inclusive Professional Regulation & Career Progression

Advocating for a Professional Engineers Bill that safeguards public safety and engineering standards while ensuring equitable opportunities for Diploma Engineers, Supervisors, ITI-qualified technicians, and skilled construction professionals. The framework should promote clear professional hierarchies, competency-based certification, continuing education, and career advancement pathways without adversely affecting existing employment opportunities within the construction ecosystem.

Skilled Workforce Empowerment

Recognizing the vital role of technicians, supervisors, and skilled workers in the construction industry by strengthening technical education, certification programs, upskilling initiatives, and welfare measures that enhance employability and productivity across all levels of the sector.

Quality, Safety & Regulatory Reforms:

Promoting standardized construction practices, quality assurance, safety compliance, and transparent regulatory frameworks to improve efficiency and public confidence.

Sustainable Infrastructure Development:

Encouraging environmentally responsible construction methods, energy-efficient buildings, and innovative technologies that support Kerala's long-term development goals.

Technology & Innovation:

Facilitating the adoption of digital construction technologies, BIM, prefabrication, AI-driven project management, and modern engineering solutions to enhance productivity and competitiveness.

Affordable & Resilient Construction Ecosystem:

Addressing challenges related to material costs, labour availability, project financing, and disaster resilience to ensure sustainable growth of the sector.

Vision Statement

LENSFED VISION

"To transform Kerala's construction sector into a recognized industry that drives economic growth, employment generation, innovation, and sustainable infrastructure development. We advocate for progressive policy reforms, including the enactment of a Professional Engineers Bill that ensures professional excellence, accountability, and public safety while safeguarding the livelihood and career advancement opportunities of Diploma Engineers, ITI-qualified technicians, supervisors, and skilled workers. Through inclusive regulation, technological advancement, and sustainable practices, LENSFED envisions a resilient, future-ready construction ecosystem that contributes to Kerala's long-term prosperity and development"

THE ENGINEERS AWARDS

HONOURING VISIONARY TRADITIONS

The LENSFED Engineers Awards 2026 stands as a prestigious and inspiring milestone, meticulously curated to shine a bright light on breakthrough accomplishments within the construction sector. Honouring talent across **30 specialized award categories**, this premier gala event focuses on recognizing the dedicated efforts, visionary concepts, and technical masterpieces created by engineering and architectural professionals. Rather than a simple trophy distribution, it is an inspiring celebration of craftsmanship meant to encourage progress and elevate industry benchmarks state-wide.

OUR LEGACY OF SUCCESS:

A LOOK BACK AT 2025

In 2025, LENSFED successfully hosted the landmark Global Build Expo & Business Summit in Kozhikode, establishing a massive benchmark for the regional infrastructure sector.

100+ Premium Stalls: Brought together core manufacturing brands and material innovators under a single roof.

1 Lakh+ Active Visitors: Attracted an incredible footfall, generating unprecedented marketplace engagement.

B2B Business Growth: Empowered participating brands to secure high-volume procurement contracts and build long-term trade pipelines backed by the robust support of LENSFED members.

OUR FLAGSHIP INITIATIVES

LENSFED has established a strong ecosystem of initiatives aimed at empowering engineering professionals, promoting skill development, enhancing member welfare, and fostering business growth within the construction sector. Through Global Build Expo and Business Summit, LENSFED KSHEMANIDHI, SKILL PARK, P K Balan Study and Research Centre and LENS MART, the federation continues to create meaningful opportunities for its members while contributing to the sustainable development of the construction industry.

Voice to Policymakers

Collectively identify, compile, and present key industry concerns and recommendations directly to the relevant State Ministries, Government Departments, and policymakers participating in the Conclave.

Cultivating Innovation

Foster a forward-thinking platform that promotes innovative construction practices, sustainable energy solutions, green building technologies, and environmentally responsible development philosophies.

Celebrating Excellence

Recognize and honour outstanding engineering and architectural achievements while encouraging the next generation of professionals.

"Together, let us create a legacy of innovation, excellence, and sustainable development for future generations."
